

Doula Services

Personalized and continuous care for Mom

Doulas are trained, non-medical professionals who provide continuous physical, emotional, and informational support to women before, during and after childbirth. Their goals are to foster communication about childbirth, promote self care for Mom and provide guidance on caring for baby. Doulas provide the opportunity for a better birthing experience while improving outcomes.

Join Our Network

Aetna Better Health® of New Jersey supports Doula Services. To refer, you must be part of our network.

- Apply and receive your Medicaid FFS Provider ID#.
