# Website Provider Resources

## HEDIS Resources

- HEDIS stands for Healthcare Effectiveness Data and Information Set. We use HEDIS scores to measure our performance, determine quality initiatives and provide educational programs for you and our members. You can use HEDIS scores to monitor your patients' health, identify developing issues and prevent further complications.
- <https://www.aetnabetterhealth.com/florida/providers/hedis.html>

## Clinical Guidelines

- Respected professional and public health organizations create clinical practice guidelines that document best practices and recommendations for care. We've chosen certain clinical guidelines to help our providers give members high-quality, consistent care with effective use of services and resources. These include treatment protocols for specific conditions, as well as preventive health measures.
- <https://www.aetnabetterhealth.com/florida/providers/clinical-guidelines-policy-bulletins.html>

## Health Equity

- Everyone should have a fair and just opportunity to be as healthy as they can be. Some obstacles to this goal include poverty and discrimination, as well as their consequences, like lack of access to good jobs with fair pay, quality education and housing, safe environments and health care.<sup>1,2</sup> Health equity and justice are goals that drive our decisions and all that we do.
- <https://www.aetnabetterhealth.com/florida/providers/health-equity.html>

## Risk Management

- Providers shall participate in and cooperate with the Plan risk management program. The Managed Care Plan shall require participating and direct service provider to report adverse incidents to the Managed Care Plans within twenty-four (24) hours of the incident. The Plan will ensure that all participating and direct service providers are required to report adverse incidents to the Agency immediately but not more than twenty-four (24) hours of the incident.
