Healthier happens together™

Protect yourself with the flu shot

Why get a flu shot?

- Anyone can get the flu — even if you're healthy.

- Getting a flu shot each year reduces your risk of getting the flu by up to 60%. It can also protect others.

- The flu vaccine can't cause the flu because it contains an inactive piece of the flu virus.

- It's available at no cost to Aetna Better Health® of Illinois members.

Eligible members ages 18 or older who get a flu shot between September 15, 2023, and December 31, 2023, can receive a **$10 gift card** from Aetna Better Health® of Illinois.*

Have questions?

AetnaBetterHealth.com/Illinois-Medicaid

1-866-329-4701 (TTY: 771)

A limited number of gift cards are available. Cards will be mailed to eligible members by June 30, 2024, while supplies last. Limited to one gift card per member.

Give it your best shot

Get your flu shot from your primary care provider (PCP), health clinic, a CVS Pharmacy® or MinuteClinic®.

You can also get a COVID-19 vaccine or booster at the same visit.
