

Aetna Better Health[®] of Kansas

Provider Search for Opioid/Specialized Expertise

Aetna Better Health of Kansas is excited to launch our enhanced web-based provider search functionality to include Opioid/Specialized Expertise based search capabilities.

Specific features of the enhanced search capabilities include:

- A new drop-down with Specialized Expertise attributes. Users can select one, multiple, or all the values.
- Zip code is a mandatory field. Users select any one of the remaining search fields after entering the zip code. For example, users can enter a zip code and any one or all the Specialized Expertise values to find all the providers with those attributes in that zip code or city/county combination.
- Users can even narrow down the search results by applying filters.

Please see our web-based provider search at the link below:
