

PATHWAYS TO PHYSICIAN DIVERSITY: A National Summit

MAYO CLINIC EDUCATION CENTER/PHOENIX, ARIZONA

FEBRUARY 9–10, 2018

JUANITA KIOUS WAUGH AUDITORIUM

5777 EAST MAYO BOULEVARD • PHOENIX, ARIZONA 85054

COURSE DESCRIPTION This summit is designed to encourage a national conversation on current challenges and future solutions by involving a national group of stakeholders in exploring the current state of the access pathway for under-represented students in medical education. Participants will engage in deconstructing the M.D./M.D.-Ph.D. pathway to identify ways to increase diversity in medicine. Plans for the summit include:

- Synergize and coalesce individuals around a shared vision for addressing the biomedical education pathway
- Form a coalition of individuals who are working in diversity in medical education to advance pathway initiatives, establish success metrics and goals
- Launch a forum for regular meetings of this group to report on progress and make future plans
- Prepare “proceedings” of the conference for broad distribution and engagement of customers, stakeholders, learners, and others

COURSE FORMAT Didactic lectures, panel discussions, and Q & A sessions. Active audience participation is strongly encouraged.

TARGET AUDIENCE Physicians and physician/scientists, high school STEM education faculty and administrators, medical education leaders, funders, medical education policy makers, and community pathway organizations.

COURSE DIRECTORS

Michele Halyard, M.D.
Mayo Clinic College of Medicine and Science

Barbara L. Jordan, M.A.
Mayo Clinic College of Medicine and Science

Alden Landry, M.D.
Harvard Medical School

Kameron Matthews, M.D.
Tour for Diversity in Medicine

Norma Poll, Ph.D.
Association of American Medical Colleges
